2QFY19 Results Review

- Above expectation. Scicom's annualised 1HFY19 core net profit is 46% above our FY19 estimate. While its performance was bolstered by a seasonally strong performance by the higher-margin Education Malaysia Global Services (EMGS) in the first half of its financial year, it nonetheless exceeded our forecast. We expect a weaker 2H largely on seasonally weaker contributions EMGS.
- **Dividend cut.** Reflecting the difficult situation the company faces, Scicom slashed its DPS by 25% from 2 sen previously to 1.5 sen, below our expectation, and its lowest since 1QFY15.
- Small turnaround qoq. 2QFY19 fell 8% yoy due to lower contributions from both BPO and EMGS because of the loss of BPO customers and the reduction in the number of seats required. EMGS is still reeling from the closure of colleges over 2015-2017 which affects student recruitment. However, revenue nudged up 3% qoq due to: 1) higher BPO revenues contributed by higher headcounts for a customer and 2) despite lower EMGS due to a high base from 1QFY19 when there was a surge in student applications after the May 2018 general elections. While its BPO business rebounded a little qoq, we believe the industry is in a long-term decline. EMGS should be seasonally weaker in 3QFY19 before picking up in 4QFY19.
- Raising FY19 EPS, cutting dividend forecast. We raise our FY19 EPS estimate by 24% and FY20 by1%. However, we slash FY19 and FY20 DPS from 9 sen to 6 sen on the back of its lower 2QFY19 DPS.

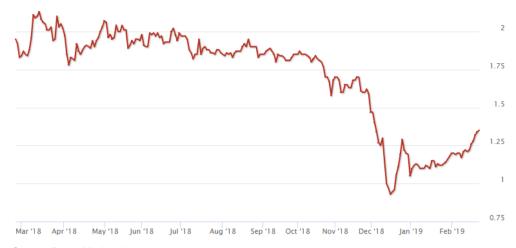

Recommendation

Upgrade to HOLD, after the sharp price de-rating, with an unchanged fair value of RM1.21 based on 16.5x FY20 core EPS. We continue to be cautious on the company, premised on the continued deterioration of its core businesses and delay in the Cambodian Tourism Management System (CTMS). Key to Scicom's turnaround is its ability to secure more BPO customers in an industry that faces headwinds, as well as garner e-government contracts but this has been plagued by uncertainties and delays, such as the CTMS. More updates to follow following Scicom's briefing on 1 March.
